FORD TRANSIT VEHICLE GUIDE

Things you may need to know
for this specific vehicle

SETTING OFF IN YOUR FORD TRANSIT

FORD TRANSIT VEHICLE GUIDE

Getting started.

STARTING THE TRANSIT

Firmly depress the clutch and brake pedal & then insert the manual key into the ignition on the right-hand side of the steering column and twist. The dash lights will then illuminate and you will hear the engine start.

DRIVING AWAY

Whilst keeping your foot firmly on the brake pedal and the clutch, select your desired gear, release the handbrake situated between the driver and passenger seat and drive off as normal. Please note, to put this vehicle in reverse you simply need to pinch the collar on the gearstick to open a 'gate' to get into reverse.

RETURNING YOUR FORD TRANSIT

Always leave at least a 1/4 tank of fuel in the vehicle before ending your reservation.

TO REFUEL THE VEHICLE AFTER USE, FOLLOW THE BELOW STEPS:

1. RETRIEVE THE FUEL CARD

You'll find it in the back of the in-car PIN-pad (inside the glovebox) or on the side of the dashboard, to the right of the steering wheel. (Please note this is only visible when the driver's side door is open).

2. OPEN THE FUEL COMPARTMENT ON THE VAN

The fuel compartment is a panel located next to the front passenger door. In order to access the fuel compartment you must unlock the vehicle and open the passenger door. This vehicle has an 'easy fuel' intake which means you do not need to unscrew a fuel cap before inserting the fuel nozzle.

3. TAKE FUEL

Check your reservation email or the inside of the fuel compartment to ensure you have selected the correct fuel type before refuelling.

PLEASE NOTE THIS VEHICLE TAKES ADBLUE:

*A fuel additive to reduce the tail-pipe emissions. You Shouldn't need to top this up during your rental, but in the unlikely event you do, most reputable fuel stations sell it. If you do purchase AdBlue for the vehicle you can easily claim back the cost via our mobile app.

If the AdBlue does need topping up, you will see a warning indicator appear on the dashboard notifying you of a decreasing mileage range. If this range drops to 0 the vehicle will cease to operate.

Please ensure if you should need to top up the AdBluee that this DOES NOT go into the regular fuel intake, but rather the dedicated AdBlue intake located behind the blue screw cap underneath the regular fuel-intake. Should you have any questions or reservations about doing this, please call the Clubhouse on 0345 266 9290 beforehand.

PLEASE REMEMBER TO RETURN WITH
AT LEAST A 1/4 TANK OF FUEL

HANDY TIPS FOR THE FORD TRANSIT

SPARE TYRE OR TYRE INFLATION KIT

The spare tyre is located beneath the rear loading doors with the tools being located in a panel underneath the driver or passenger seat: the door will need to be open in order to see this access panel. Alternatively, if the vehicle does not have a spare wheel, you should find a tyre inflation kit located in one of the aforementioned access panels. Important: Please note that the inflation kit must only be used to seal a puncture located across the tyre tread. It will not repair sidewall tyre damage. Please contact the Clubhouse for further information if you have a puncture 0345 266 9290.

WHAT IF I BREAKDOWN?

In the event of a breakdown, please ensure you have stopped the vehicle on the roadside in a safe manner before calling our 24/7 Clubhouse line on 0345 266 9290

Please note – dependant upon the circumstances you may be liable for any costs incurred.

CONTACTING THE CLUBHOUSE

If you are unable to place the vehicle back in its allocated bay, need to extend your reservation or have any questions, you can contact the Clubhouse by calling 0345 266 9290. Alternatively, you can use the in-car PIN-pad to select these options by using the menu button.
